

Press Release

Rotary Club of Brixham

?th February 2021

THE ROTARY CLUB OF BRIXHAM IDENTIFIED A NEED TO HELP LOCAL SCHOOLS WITH THEIR ABILITY TO TEACH CHILDREN ONLINE DURING THE COVID LOCKDOWN AND SO FAR HAS HELPED FOUR ESTABLISHMENTS

The Brixham Rotary Club approached local schools and colleges to see if there was any equipment that they required to help with home schooling at this particularly difficult time of a Covid-19 lockdown. Knowing that many schools have the children of essential workers still attending while others are taking lessons online at home, many schools seek duplicate equipment as some teachers are teaching from home themselves and the equipment they have is mainly classroom based.

President, Adrian Laurie, said "We had an immediate responses from 3 schools and Brixham College who we were able to assist. Eden Park School requested Items such as triangular white boards, white board pens, flipcharts with flipchart paper and pens. Margaret Clitheroe School asked us to supply an easel and whiteboard and Brixham College funds for the purchase of burgees that are given to students as recognition of 12 skills they have learnt during the Covid-19 lockdown that will help students in their employability on leaving college. The remaining school we assisted was Galmpton School who asked for 'TalkTime' writing and recording cards for a year group, these record and play back in high quality, so can be used for phonic work. "

He continued, "I would like to thank Rotarian David Sharpe for contacting the schools in this respect and arranging so quickly for the funds to be available for the purchase of these essential items. The Brixham Rotary club would like to raise further funds to support their schools appeal and will be posting the means by which donations can be made on their Facebook page and Website, www.brixhamrotary.org ".

Ends.....
